

### **Robert Envine - Parent governor**

A technology leader, specialising in web accessibility, performance, quality and usability. Proven project planning experience ranging from the small to the large and complex. Passionate about new & emerging technologies and how we can embrace them in order to drive meaningful outcomes.

Bringing these skills to the governing board, I believe I can add valuable input into the strategic direction of the school, ensuring that our new school values of aspiration, unity and integrity are fully embedded throughout, from nursery all the way through to year six.

And why do I do this? Knowing that I have played even the smallest of parts in helping each and every child at the school make the most of themselves during their time at Longfields is reward enough.
