Mathematics	Term 1 Cycle 1	Term 2 Cycle 1	Term 3 Cycle 1	Term 1 Cycle 2	Term 2 Cycle 2	Term 3 Cycle 2

Year 4 Maths

Number & Place Value

	Term 1 Cycle 1	Term 2 Cycle 1	Term 3 Cycle 1	Term 1 Cycle 2	Term 2 Cycle 2	Term 3 Cycle 2
• count in multiples of 6, 7, 9, 25 and 1000	■	■	■	■	■	■
• find 1000 more or less than a given number	■	■	■	■	■	■
• count backwards through zero to include negative numbers	■	■	■	■	■	■
• recognise the place value of each digit in a four-digit number (thousands, hundreds, tens, and ones)	■	■	■	■	■	■
• order and compare numbers beyond 1000	■	■	■	■	■	■
• identify, represent and estimate numbers using different representations	■	■	■	■	■	■
• round any number to the nearest 10, 100 or 1000	■	■	■	■	■	■
• solve number and practical problems that involve all of the above and with increasingly large positive numbers	■	■	■	■	■	■
• read Roman numerals to 100 (I to C) and know that over time, the numeral system changed to include the concept of zero and place value.			■			■

Number Addition and Subtraction

	Term 1 Cycle 1	Term 2 Cycle 1	Term 3 Cycle 1	Term 1 Cycle 2	Term 2 Cycle 2	Term 3 Cycle 2
• add and subtract numbers with up to 4 digits using the formal written methods of columnar addition and subtraction where appropriate	■	■	■	■	■	■
• estimate and use inverse operations to check answers to a calculation	■	■	■	■	■	■
• solve addition and subtraction two-step problems in contexts, deciding which operations and methods to use and why.	■	■	■	■	■	■

Multiplication and Division

	Term 1 Cycle 1	Term 2 Cycle 1	Term 3 Cycle 1	Term 1 Cycle 2	Term 2 Cycle 2	Term 3 Cycle 2
• recall multiplication and division facts for multiplication tables up to 12 × 12	■	■	■	■	■	■

Objective						
use place value, known and derived facts to multiply and divide mentally, including: multiplying by 0 and 1; dividing by 1; multiplying together three numbers	red	yellow	green	cyan	blue	purple
recognise and use factor pairs and commutativity in mental calculations		yellow	green		blue	purple
multiply two-digit and three-digit numbers by a one-digit number using formal written layout	red	yellow	green	cyan	blue	purple
solve problems involving multiplying and adding, including using the distributive law to multiply two digit numbers by one digit, integer scaling problems and harder correspondence problems such as n objects are connected to m objects.		yellow	green		blue	purple

Fractions

Objective						
recognise and show, using diagrams, families of common equivalent fractions		yellow	green		blue	purple
count up and down in hundredths; recognise that hundredths arise when dividing an object by one hundred and dividing tenths by ten.		yellow	green		blue	purple
solve problems involving increasingly harder fractions to calculate quantities, and fractions to divide quantities, including non-unit fractions where the answer is a whole number			green			purple
add and subtract fractions with the same denominator		yellow	green		blue	purple
recognise and write decimal equivalents of any number of tenths or hundredths		yellow	green		blue	purple
recognise and write decimal equivalents to quarter and half	red	yellow	green	cyan	blue	purple
find the effect of dividing a one- or two-digit number by 10 and 100, identifying the value of the digits in the answer as ones, tenths and hundredths		yellow	green		blue	purple
round decimals with one decimal place to the nearest whole number		yellow	green		blue	purple
compare numbers with the same number of decimal places up to two decimal places		yellow	green		blue	purple
solve simple measure and money problems involving fractions and decimals to two decimal places.		yellow	green		blue	purple

Measurement

Objective						
Convert between different units of measure [for example, kilometre to metre; hour to minute]		yellow	green		blue	purple
measure and calculate the perimeter of a rectilinear figure (including squares) in centimetres and metres		yellow	green		blue	purple

Objective	Col 1	Col 2	Col 3	Col 4	Col 5	Col 6
• find the area of rectilinear shapes by counting squares	■	■	■	■	■	■
• estimate, compare and calculate different measures, including money in pounds and pence	■	■	■	■	■	■
• read, write and convert time between analogue and digital 12- and 24-hour clocks	■	■	■	■	■	■
• solve problems involving converting from hours to minutes; minutes to seconds; years to months; weeks to days.	■	■	■	■	■	■
Geometry						
• compare and classify geometric shapes, including quadrilaterals and triangles, based on their properties and sizes	■	■	■	■	■	■
• identify acute and obtuse angles and compare and order angles up to two right angles by size		■	■		■	■
• identify lines of symmetry in 2-D shapes presented in different orientations		■	■		■	■
• complete a simple symmetric figure with respect to a specific line of symmetry		■	■		■	■
• describe positions on a 2-D grid as coordinates in the first quadrant	■	■	■	■	■	■
• describe movements between positions as translations of a given unit to the left/right and up/down			■			■
• plot specified points and draw sides to complete a given polygon			■			■
Statistics						
• interpret and present discrete and continuous data using appropriate graphical methods, including bar charts and time graphs.			■			■
• solve comparison, sum and difference problems using information presented in bar charts, pictograms, tables and other graphs.		■	■		■	■
